Late Shri Sagar Chand Jain

Founder, DevDarshan

Our Story

From Humble Beginnings to Global Recognition

In the small town of Samana, Punjab, a remarkable journey began in 1954. What started as a simple family business has grown into a beloved brand of incense products, known for quality and tradition.

The Birth of a Vision

DevDarshan's story begins with Shri Sagar Chand Jain, a founder who deeply cared about his community. After India's partition, there was a pressing need for local jobs. Inspired by the leaders of the time, Sagar Chand Ji saw an opportunity in producing dhoop, or incense, which laid the foundation for the brand we cherish today. Starting with just ₹1,500, the business grew slowly at first, but over the years, its value has skyrocketed as while maintained a strong commitment to quality.

Upholding Tradition

In today's fast-changing world, DevDarshan have thrived despite new competitors and advancements in technology. The key to our success is our unwavering focus on quality and the traditions that define us.

Looking Ahead

The future is bright for DevDarshan. With the growing global market for incense, we are ready to expand while staying true to our roots. In the coming years, we envision achieving even more. The demand for quality products like ours continues to rise, and we will keep innovating while staying true to our values. Even in a competitive industry, our commitment to quality never wavers. Our customers can always trust that we deliver the same great quality we've provided since our inception.

A Legacy of Perseverance

From a small family business founded by Sagar Chand Jain to a recognized name worldwide, DevDarshan's journey reflects the power of hard work, tradition, and dedication to excellence. As we move forward, our mission is clear: to grow our brand while honoring the values established by the founder. DevDarshan is more than just a brand; it represents tradition, resilience, and the lasting appeal of quality craftsmanship, connecting people and reminding them of home, no matter where they are.
